Survivorship Follow-Up Questions

Questions for visits after treatment ends

1 About my follow-up plan

- ? Which check-ups, tests, or scans will I need, and how often?
- ? Can I get a written summary of my treatment and a follow-up care plan?
- ? Who is in charge of my follow-up care — my oncology team, my primary doctor, or both?
- ? How long will my follow-up visits continue?

2 About how I might feel

- ? Which late or long-term effects should I watch for after my treatment?
- ? Which symptoms should I report right away, and which can wait for my next visit?
- ? Who can I talk to about worry, low mood, or fear that the cancer may return?

3 About everyday life

Are there healthy habits you suggest I focus on now?

Are there screenings or vaccinations I should keep up with?

Who do I contact with questions between visits, and how?

THE BOTTOM LINE

Follow-up care is part of care — bring your questions, and ask for your survivorship care plan in writing.
